

Hector Camero, Associate & Learning Coach

Hector Camero, has over 25 years of experience as director, manager, consultant in Health, Safety and Environment (HSE). During these years he has contributed to organizational change in various companies, particularly in the transformation of the safety culture and environmental protection, thereby positively impacting the business results and the corporate sustainability. He is a Mechanical Engineer graduate from the Universidad Central de Venezuela (Caracas), has a Specialization in Occupational Risks of the Polytechnic University of Madrid, and did a Management Development Program at ADEN Business School (Bogotá). He is a Quality lead auditor certified by the IRCA.

Hector was director of HSE in Latin America for Bayer HealthCare, contributing to the sustainability of the business results and adapting German guidelines to the Latin culture and integrating multicultural leadership. In this role he worked in Brazil, Germany, Spain, Argentina. He served for 15 years as Corporate Manager of Health, Safety, Environment and Quality for Bayer in the Andean Region, helping teams resolve their challenges, work effectively, strengthen their skills, and transforming the organizational culture. In this role he worked in Colombia, Venezuela, Peru and Ecuador.

Hector is Chairman of HSEQ Camero Consulting that offers solutions to deploy business strategies to transform the culture of safety and environmental awareness. He is also an associate with LIM Latam, supporting the expansion of LIM in Colombia. Among his clients are: Gerdau Diaco (Colombia), Aceros de Guatemala, Sidegua, Distun, Intupersa in Guatemala. Dominican Republic National Industries, Construction Sofisa in Dominican Republic, Empresas Polar in Venezuela, Plumrose in Venezuela, Peru Siderperu, Ingenio Pantaleon in Guatemala.

He was president of the environmental committee of the Venezuelan-American Chamber of Commerce and the Loss Prevention Committee of the Chamber of Commerce. He led the committee of quality and environment of the Venezuelan-German commerce chamber and is a Founding member of the Responsible Care Initiative of the Chemical and Petrochemical association in Venezuela (ASOQUIM). He was a member of the national commission on environmental ANDI Colombia and the Board of the Colombian Safety Council. He was also a visiting professor specializing in environmental engineering from the University of La Sabana in Bogota.
